

## SPECIFICATION

Range: **FLAT**

Design: **Alberto Meda, Francesco Meda**

“Snowsound Technology” sound-absorbing element fixed to the wall / ceiling.

Panel description:

Panel with convex section rear side and flat front side, thickness 36 mm, consisting of an internal padding in polyester fiber with variable density decreasing towards the core of the panel. It is covered on both sides with polyester fabric Trevira CS®, solidly applied to the padding. The panel is characterized by the rigid edge, obtained by the manufacturing process itself, without the presence of any support and stiffening frame.

The panel has an **Italian Class1** fire reaction and **Euroclass B-s2, d0**.

The panel is **Greenguard Gold** certified, which validates its low VOC emission and its contribution to the quality of the indoor environment.

The panel is **100% recyclable** and has no detectable formaldehyde content according to UNI EN 717-2. It does not contain felts or other organic materials that are hardly recyclable.

The panel has been tested in reverberation chamber according to UNI EN ISO 354 and obtained “**Acoustic Absorption Class A**”, in accordance with UNI EN ISO 11654.

Panel dimensions:

Support description:

The panel is fixed to the wall/ceiling thanks to a chromed steel arm, available in two lengths, and a plate, also in chromed steel, fixed directly to the panel with self-tapping screws. These two elements are connected by a joint that allows rotation and inclination of the panel itself.

The products described in this data sheet are **CE marked** according to the harmonized product standard EN 13964 for the intended use as a drop ceiling.
